

MDM is committed to providing quality service and competitive prices to customers.

All businesses at some stage need to call on a copy centre – for a fast turnaround on black & white copying, to run off a couple of colour copies, or to get that document bound just right. There are lots of copy centres around, but how do you choose between them?

Location? Service? Price? All are factors.

Some print & copy centres charge so much that they have a licence to print money! We're different.

Located just off Lygon Street, we specialise in colour and black & white copying, backed up with a full graphic design and secretarial service. We also know that businesses nowadays don't just work 9 'til 5, so we'll stay late, or open early if you need us to.

By providing a fast and efficient business support – including colour copying, printing, graphic design, high-speed B&W copying and secretarial services – we let you and your staff concentrate on the most important aspect of your business – keeping it.

We have an extensive list of clients – all have found us cost effective, efficient and reliable.

After all, your business is our business.

We lead, the others just copy
